

In line with latest guidance we wish to publish the following GP mean income for the financial year 2017/18. This figure is before the deduction of tax, national insurance and employee pension costs: £80434

During 2017/18 the practice had 1 full time GP Partners, 5 part time GP Partners, (for part of the year there were 6 part time partners) 4 part time salaried GPs.

*NHS England requires that the net earnings of doctors engaged in the practice is publicised, and the required disclosure is shown above. However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, or to make any comparison with any other practice.*
