Review due May 2025 with Complaints Protocol

If you have a complaint or concern about the service you have received from the doctors or any of the staff working in this practice, please let us know. We operate a practice complaints procedure as part of the NHS system for dealing with complaints.

How to complain

We hope that most problems can be sorted out easily and quickly, often at the time they arise and with the person concerned. If your problem cannot be sorted out in this way and you wish to make a complaint, we would like you to let us know as soon as possible because this will enable us to establish what happened more easily.

If it is not possible to do that please let us have details of your complaint:

- within 12 months of the incident that caused the problem; or
- within 12 months of discovering that you have a problem.

Complaints should be addressed to Anita Sembi, Operations Manager.

What we shall do

We will acknowledge your complaint within three working days and agree with you the timeframe in which this will be investigated (this may vary depending on the complexity of the complaint). In the majority of cases, the practice will aim to investigate within 30 working days from the date the complaint was raised. Once our investigations have taken place we will be in a position to offer you an explanation, or meeting with those involved.

Complaining on behalf of someone else

Please note that we keep strictly to the rules of medical confidentiality. If you are complaining on behalf of someone else, we have to have their written permission to discuss the matter with you, unless they are incapable of providing this due to illness.

What you can do next

We hope that if you have a problem, you will use the practice's complaints procedure. We believe this will give us the best chance to put things right and improve our practice.

However this does not affect your right to approach NHS England if you feel you **cannot** raise your complaint with us.
